CHAPTER IX – USE OF CHURCH PROPERTY AND RESOURCES

The Presbyterian Church (USA), in the Book of Confessions, Chapter XXVIII, Of the Possessions of the Church; gives the following statement of the use of church possessions:

“Now the true use of the church’s wealth was and is now, to maintain teaching in schools and in religious meetings, along with all the worship, rites, and buildings of the church; finally, to maintain teachers, scholars and ministers, with other necessary things, and especially for the succor and relief of the poor.”

Faith shall at all times strive to follow this statement of use in conducting its affairs and in using its buildings and resources. The primary orientation and principal objectives of Faith Presbyterian Church are to provide worship and Christian activities in an atmosphere of support, service and participation for the entire community. The church property exists to support the worship, work and mission of the church. As such, it has an economic value, which should be carefully preserved. The policies and procedures stated below are designed to support these objectives.

A. Use of Church Buildings and Grounds

1. General Provisions

- a. Alcoholic beverages are prohibited on church property.
- b. No smoking is permitted inside church buildings. Smoking is also prohibited during group activities held on the church grounds.
- c. All fund raising events require compliance with the Faith solicitation policy, including approval of the Session where required.
- d. Excepting vehicles, use of church equipment beyond the church premises is prohibited.
- e. Any request for use of facilities not included within these policies is to be submitted to the Session, along with a recommendation to approve or disapprove by the responsible committee of Session.

2. Provisions for use by church organizations

Faith church organizations may use the facilities without charge for activities related to their approved mission, subject to scheduling availability.

3. Provisions for use by church members

Faith church members may use the facilities for weddings and receptions, subject to scheduling availability, payments of fees in the fee schedule, and approval by either the Building and Grounds or Worship and Music committees, as indicated in IX.B, below.

CHAPTER IX – USE OF CHURCH PROPERTY AND RESOURCES

4. Provisions For Use by Outside Organizations

- a. To seek approval for use of church facilities, an outside organization must have, in the judgment of the Session, a mission and purpose that is consistent with those of Faith Presbyterian Church. The church may approve or disapprove facility use by any organization at its sole discretion.
- b. The facilities of the church may not be used by for-profit or partisan political entities.
- c. Outside organizations are to submit an **Application for the Use of Church Property** to the Church Administrator for transmittal to the appropriate committee (see IX.B., below.)
- d. All requests must include a fully executed **Hold Harmless Agreement**. A **Certificate of Insurance** may be required from the outside organization by the reviewing committee when the committee determines the circumstances of a request warrant insurance.
- e. Fees will be applied according to the **Schedule of Fees** (see B.3.below).

B. Requests and Approvals for Use of Church Facilities

1. Use of the sanctuary

- a. The primary purpose of the Faith Presbyterian Church sanctuary is for Christian worship services.
- b. The Worship and Music Committee has responsibility for approval of events other than regular worship services in the sanctuary, except that use by any outside organizations, which intends to charge admission or otherwise to solicit funds for itself or for a sponsored charity, shall also require approval of the Session.
 - i. In the event that the Worship and Music Committee, due to time constraints, is unable to act on an urgent request for use of the sanctuary, then the Senior Pastor will act on behalf of the committee, and report the decision to the Worship and Music moderator. This provision, however, does not negate the requirement for Session approval of use by an outside group, which intends to charge or to solicit contributions.
- c. Approved music events involving outside groups, including sacred arts performances and recitals, will be scheduled through the Director of Music, subject to a requirement for Session approval for groups planning to charge or to solicit, as in B.1.b. above.
- d. The Worship and Music Committee will determine the fees charged for each outside group based on the fee schedule contained herein (see IX.B.3. below).

CHAPTER IX – USE OF CHURCH PROPERTY AND RESOURCES

2. Use of facility, non-sanctuary

- a. The Worship and Music committee has responsibility for approval and scheduling of music programs in the Fellowship Hall. Approved music events involving outside groups, including sacred arts performances and recitals, will be scheduled through the Director of Music, subject to a requirement for Session approval for groups planning to charge or to solicit, as in B.1.b. above.
- b. Requests for all other uses of the church building and grounds are to be submitted to the church administrator, along with any required documents or forms, then forwarded to the Buildings and Grounds Committee for consideration.
 - i. In the event that the Building and Grounds Committee, due to time constraints, is unable to act on an urgent request for use of the facility, the Church Administrator will act on behalf of the committee, and report the decision to the Building and Grounds Moderator.
 - ii. For recurring use of the facility by an approved group, the church administrator may schedule facility use, subject to space availability, without repetitive approval by the Buildings and Grounds committee.
 - iii. Requests by internal church groups shall take precedence over requests by outside groups, in cases of scheduling conflicts.

3. Fees for Use of Facilities

- a. A **Schedule of Fees** is to be developed by the Building and Grounds Committee, in consultation with the Worship and Music Committee, and approved by the Session. The fee schedule shall be designed to recover the real costs of facility use for the activity scheduled, including utilities, cleaning, and insurance. A sextons' fee may be added should it be considered necessary for a sexton either to stay late or return to the facility after usual hours, to clean up or to set up the area used for usual purposes. The Schedule of Fees may be revised from time to time, adjusting to changes in the costs of operating the facility. Fees do not include set up of tables and chairs or provision of table coverings.
- b. Fees do not apply to internal organizations of the church itself, which use the facilities as part of their stated mission.
- c. Fees may be waived or adjusted for outside organizations based on the circumstances of the organization and the proposed use. at the request of the organization. Such requests will be evaluated on their merits by the Buildings and Grounds or Worship and Music Committees, as appropriate, and a decision made by the committee.

CHAPTER IX – USE OF CHURCH PROPERTY AND RESOURCES

I. ACQUISITION AND PURCHASING PROCEDURES

The acquisition of any product or service, either by purchase, installment purchase, lease agreement or rental agreement using church funds shall be allocated and charged to either a specific or general line item in the church budget, as approved by the Session provided the funds have been appropriated for such purpose, the approval does not exceed the appropriated amount in the annual budget, and provided the moderator of said committee has given either written, email, or phone approval. Further, it is understood that in an emergency situation regarding the maintenance of the church facility, the Church Administrator may act in the best interest of the Church without obtaining moderator approval such as contacting plumbers, heating and air specialists, etc. Any Standing Committee may adjust or transfer budgeted authority between line items, provided the adjustment or transfer does not exceed the total annual committee budget approved by the session. Any expenditure that will cause the exceeding of the approved committee budget or any increase in a Standing Committee budget must have prior approval of the Session before that acquisition is consummated by the church.

1. Expenditures less than or equal to \$5,000

The Church Administrator may approve proposed expenditures (including purchases, contracts, leases or rental agreements) up to a \$5,000 one time or annual cost, provided that the funds have been allocated for such purpose in a budget line item of the current annual approved church budget and the acquisition does not cause the allocated line item to exceed the amount in the annual budget. For purchases over \$50, the Church Administrator should have the permission of the Moderator of each Committee by either written approval, email approval, or in emergency situations, phone approval.

For any and all such expenditures, the Church Administrator is encouraged to obtain multiple cost estimates for the acquisition, unless such acquisition is from a supplier that the church has either previously done business with or has established an account with and the Church Administrator has reason to believe that pricing with the supplier is either competitive or overall services are advantageous to the church. For any expenditure above \$2,500 and up to \$5,000, the Church Administrator must obtain three or more price quotations prior to the expenditure of church funds. The Church Administrator is not required to base supplier selection solely on the lowest price, but may factor in timeframe to have the product delivered, transportation costs, shipping costs and any other factors that represent the best interest of the church.

2. Expenditures greater than \$5,000

The Standing Committee or designated Ad Hoc Committee may approve proposed expenditures (including purchases, contracts, leases or rental agreements) greater than \$5,000 one time or annual cost, provided that the funds have been allocated for such purpose in a budget line item of the current annual approved church budget and the acquisition does not cause the allocated line item to exceed the amount in the annual budget.

For any and all such expenditures greater than \$5,000, the Standing Committee or Ad Hoc Committee shall solicit three or more competitive bids, quotations or proposals, consisting of terms, conditions, purchase or lease price, cost of annual maintenance (if applicable); prior to any expenditure of Church funds. The Standing or Ad Hoc Committee, along with the Church Administrator, shall review the results of the competitive solicitation and shall make a recommendation to the session. The resulting recommendation of an award does not have to be the lowest price, but may factor in price, reputation, quality of the offer,

maintenance service and staff, prior work experience, information obtained from other customers or other criteria as deemed appropriate. No purchase shall be consummated until session approval is obtained.

3. Acquisitions of products or services from or with Church Members

The acquisition of any product or service from a church member or through a company employing a church member or from a company owned by a church member may be authorized, provided that all of the provisions of this section I., items 1. and 2. have been adhered to. Neither the Church Administrator, any Standing Committee nor any Ad Hoc committee shall permit any preferential treatment in the acquisition process to be given toward any potential or current supplier due to any relationship between said supplier and a church member.
